Dear Mr. Weisberg:

I recently purchased your new book "Case Open" and completed it within a twenty four hour period. Since having read Posner's "Case Closed", I have felt that a rebuttal was in order.....but, who to do this? You, Mr. Harold Weisberg, the most knowledgeable writer and researcher into our nation's greatest enigma, the assassination of John F. Kennedy. Your continuing mission to make certain that one day the truth be known should be an inspiration to every American.

You have my greatest respect; a gentleman of your age, being in ill health and still having the desire and determination to find the truth. To me, you are a true American Hero, of which this country needs more.

Please send me your book price list.

Sincerely,

Chuck Loyash

P.S. I am looking forward to your new book, "Never Again."
